

# Actinic BL PL-S/PL-L

## Actinic BL PL-S 9W/10/2P 1CT

With an optimized performance to attract most insects the Philips Actinic BL PLS/PLL lamps offer a more compact solution for electronic insect killer systems. And, with a range of wattages, they are also suitable for photopolymerization and reprographic processes. In addition, Philips provides a wide choice of BL TL, BL TLD, and BL T5 versions as well as a circular and a T5 version. Hence, product designers have a high degree of flexibility in choosing the best fitting solution for their needs – including compact designs. For extra safety, there is a special shatter-proof “Secura” option which ensures that all the lamp’s glass and components are retained in a special outer sleeve in the case of accidental breakage. Hence, product designers have a high degree of flexibility in choosing the best fitting solution for their needs. What’s more, as a 100% lead-free and low-mercury product these lamps also provide a responsible environmental choice.
